📍 Lahore, Pakistan

PROFESSIONAL SUMMARY

Driven and detail-oriented **Software Engineering student** at Lahore Garrison University (expected 2027) with hands-on experience in **front-end development**, **machine learning**, and **cybersecurity**. Currently serving as a Frontend Web Developer at Elevvo Pathways (sponsored remote internship) and gaining practical exposure at Tech Hierarchy and Arch Technologies. Passionate about building responsive web applications, exploring AI-driven solutions, and contributing to national cybersecurity initiatives. Proven ability to collaborate in fast-paced environments, with a strong foundation in **C++**, **OOP**, and **MySQL**. Actively seeking opportunities to apply technical skills to real-world challenges in software engineering and secure communications.

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, HTML5, CSS3, Python (basic), SQL
- **Frameworks & Libraries:** React.js, Bootstrap, Tailwind CSS
- **Databases:** MySQL, MongoDB (basic)
- **Tools & Platforms:** Git, GitHub, VS Code, Figma, Postman
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures, REST APIs, Responsive Design
- **Areas of Interest:** Front-End Development, Machine Learning, Cybersecurity, IoT

PROFESSIONAL SKILLS

- **Soft Skills:** Problem-solving, Team Collaboration, Time Management, Adaptability, Attention to Detail
- **Communication:** Technical Documentation, Presentation Skills, Bilingual (Urdu/English)
- **Project Management:** Agile methodologies, Task prioritization, Remote collaboration tools (Slack, Zoom, Trello)

EXPERIENCE

Elevvo Pathways

Frontend Web Developer (Sponsored Internship)

Remote

August 2025 – Present

- Develop and maintain responsive web interfaces using HTML5, CSS3, and React.js, ensuring cross-browser compatibility and mobile-first design.
- Collaborate with a distributed team of developers and designers to deliver real-world client projects on schedule.
- Optimize website performance, reducing load times by 25% through image compression and code refactoring.
- Implement version control using Git/GitHub, participating in code reviews and agile sprint planning.

Digital Empowerment Network

Web Developer

Pakistan

July 2025 – Present

- Build and maintain dynamic websites for non-profit initiatives focused on digital literacy and community empowerment.
- Integrate backend APIs and manage MySQL databases to support user authentication and content management.
- Conduct usability testing and implement UI/UX improvements based on user feedback.

Tech Hierarchy

Web App Developer

Remote

March 2026 – Present

- Design and develop full-stack web applications using modern JavaScript frameworks and RESTful APIs.
- Collaborate with the ML team to integrate basic AI-driven features into web platforms.
- Write clean, maintainable code following OOP principles and industry best practices.

Arch Technologies

Machine Learning Intern

Remote

January 2026 – Present

- Assist in building and training ML models for data classification and pattern recognition tasks.
- Preprocess and clean large datasets using Python (Pandas, NumPy) for model training.
- Document model performance metrics and contribute to technical reports.

ISPR (Inter-Services Public Relations)

Summer Intern – Cybersecurity Focus

Punjab, Pakistan

July 2025 – August 2025

- Researched the role of cybersecurity in modern warfare and strategic media communication.
- Analyzed emerging cyber threats, including disinformation campaigns and communication vulnerabilities.
- Explored AI-driven solutions to counter misinformation and protect digital assets in defense contexts.
- Collaborated with professionals to understand secure communication protocols and national information security.

EDUCATION		
Lahore Garrison University		Lahore, Pakistan
<i>Bachelor of Science in Software Engineering</i>		<i>March 2023 – June 2027 (Expected)</i>
• Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Operating Systems, Intro to AI • CGPA: 3.6/4.0 (Honors) • Activities: Member of University Coding Club, Cybersecurity Workshop Participant		

Certifications & Trainings		
Front-End Development Certification	Online Platform (2025)	
Introduction to Cybersecurity	Cisco Networking Academy	
Machine Learning Specialization	Coursera (In Progress)	
OOP in C++	University Course Project	

Key Projects		
Smart Home IoT Dashboard	(HTML/CSS/JS, Firebase)	2025
Built a responsive dashboard to simulate IoT device control and real-time sensor data visualization.		
Student Management System	(C++, MySQL)	2024
Developed a console-based application using OOP principles to manage student records, courses, and grades.		

Languages		
English: Professional working proficiency Urdu: Native proficiency
